CHAT BOT ON HOTEL BOOKING

I have created an agent name Kalmuri and I have described the agent as "Agent" is helpful for hotel booking, room rent enquiry, booking room, taking food order and reserving table in the hotel."

- ❖ This is a chat bot in English language only
- ❖ This is on hotel booking
- ❖ It is trained with many phrases
- ❖ For some intents the model is trained with more than thirty phrases
- ❖ Even though the outputs is same but the outputs are in different ways with same meaning

users can ask questions related to:

- ➢ ROOM RENTS IN THE HOTEL
  Eg : What re the room rents in the hotel
- ➢ TYPES OF ROOMS AVAILABLE
  Eg: what kinds of rooms are available in the hotel
  or what are the different sort of rooms in the hotel
- ➢ BOOKING ROOMS
  Eg: Book a double room for me tomorrow or
      please book a quad for me on so and so date at so and so time
- ➢ TABLE RESERVATION
  Eg: reserve a table for 5 members at 7 pm today
- ➢ FOOD MENU
  Eg: Please show me food menu or what is the food menu
- ➢ ORDER FOOD
  Eg: please mark my order as biryani or pbring biryani it to my room

TRY SOME QUESTIONS AND LIKE BOOK HOTEL, RESERVE TABLE .
